

The SBA has released updated forms for Paycheck Protection Program (PPP) borrowers and lenders. The forms now reflect the changes announced in the latest interim final rule (IFR). The IFR changed the interplay between the Shuttered Venue Operator Grant Program and the PPP. It also addressed the types of businesses eligible to receive first-draw PPP loans and electric cooperatives and telephone companies' eligibility. Additional details on the types of payroll costs that are not eligible for loan forgiveness are identified as well.
